RUTLAND HIGH SCHOOL

DEDICATION

We honor a faithful friend of the Rutland community who has for the last 66 years provided the youth with steadfast commitment. Her undaunting support has created for a stable structure, in which enabled her supporters to obtain tools for the future.

Her spirit embodies an undying tradition that provides a stable learning environment. This allows her supporters to build a foundation that will instill qualities of pride, commitment, and intelligence.

We thank you Rutland High School, and we dedicate the 1994 Tailisman to you. Though we move on, you are the stepping stone to our future. Your high standards and commitment to education will be the cornerstone of the new high school.

CLUBS AND ACTIVITIES

NOT ENOUGH TIME . . .

Student Council is an organization with representation from each homeroom grades 9 through 12 who help make Rutland High School a fun, safe, and educational place to be. Led by Mr. Wolk, this group provides a voice in the important decisions being made about the school and the community.

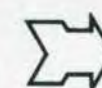

Student Council has helped the needy during Christmas time and planned the Discipline Board used in the new discipline plan, which went in the effect December of 1993.

Members enjoy having an overview of what really goes on in the school and being part of the process in making RHS a better school. Freshmen Jessie Arthur and Tracy Clark say they like being in the Student Council because they get a chance to voice their opinions and make a difference. Suzanne Kantorski, a junior, states that "... Student Council can promote significant changes to suit the changing needs of our student climate". As ninth grader Emily Hooker puts it, "We actually get things accomplished."

A good outlook by the people who represent the whole student body. Student Council is just an example of how regular people can help make things happen.

Since the meaning of Key Club is a definition that is not lucid to the students of RHS, here are some direct answers from members of the 1993-1994 Key Club. Bill Sweet states that it is "... to help people throughout the community and to try to help people that need us." Similarly, Caryn Dupis says, "To provide services to the community, help Kiwanis with their projects, and to help others." These statements should give you a better view of what the club does. Key Club is affiliated with Kiwanis. Together the two groups provide our community with many heart - warming projects. Just one example is when they participated in wheelchair square - dancing.

Ironically, this group is an excellent club but there is an anonymous concern that there is not enough participation from the student body. Kelly Crowley says "... it is a great way to show and use leadership." Crystal Calguiri has another concern that they need more consistency as well.

Key Club is not just a club that meets every Wednesday after school, they also attend an optional convention in the spring that joins Key Clubbers from all over the country. This convention is spent over a weekend that is full of interesting lectures, introductions to new people and most importantly, great shopping malls!

YOU CAN QUOTE ME ON THAT!

What is your opinion of the food served?

I didn't like the food, the only things that were edible were the things that weren't cooked, like cereal and salad. - Shannon Haley

Why do you belong to this club?

It is a fun and cool way to meet people. It also gives you a good feeling helping people. - Hal Metzler

Your Junior year rolls around and you suddenly feel the real "pressure" that everyone warns you about. Well, among the grades that you worry about, the job you are trying to keep, you also wonder if you will have enough school activities to show on your application that you will send out to colleges next year. Then when you think that there is nothing more to get involved in, you are notified over the P.A. system that it is time to fill out your Girls State / Boys State applications. Of course you do the smart thing and apply. Then, two weeks later you receive the news that you have been picked to spend a week at this government stimulated program, so you ask, what is it? You start asking around and you receive an array of responses. Who do you believe? Matt Walterscheid? He says "... it's set on rules of 50 years ago which didn't relate to the kids of this age." Or Shannon Haley? She feels "... these programs are worth while. I learned a lot from it and enjoyed the experience." Of course you could also believe Nate Symanski who says "... the program was worth while if you get involved ...", however he also adds, "... the roles are limited and therefore the experience of Boys State was dissolved."

Despite all the remarks that you hear, you have been chosen to go and you will undoubtedly form an opinion of your own. However, no matter what your experience may be, positive or negative, you will meet people from around the state and get to know a diverse group of girls or boys.

When the girls and guys went this summer to their selected program, there was a shared concern that was festering within both groups; should the two programs be joined? Some reactions from the seniors who attended last year are: "There is no reason they should have the two separate. The set-up at Boys State made it unrealistic." - Josh Christie. Kyle Abrahamovich says, "Yes, because it would be more like real life and everyone would get the same treatment." From the girls, Dayna Barth states, "Yes they should be. It would give students a more realistic view government and how it is run." According to these responses you can see that it is probably time to change the criteria to made it a realistic learning experience.

JETS
1st row l. to r. R. Sherman, M. Berry, K. MacFarlane, U. Schindler. 2nd row l. to r. C. Record, J. Alcorn, E. Bove, E.J. Poplawski, D. Limmer.

Junior Engineering Technical Society, JETS, is a club that combines both math and science for many purposes. First-year member Tracey Clark said "you have to use critical thinking to solve the problems brought to you." JETS is also about models using technology. Jenny Everett thought that "the science and math help to build projects." On the other hand, Jason Ladabouche said that the best part about JETS is "getting up in the wee hours of the morning to trudge to school, before the sun rises, for a short time at JETS."

Debate Team: 1st row l. to r. E. Hooker, J. Manchester, L. Cox, L. Haven, S. Martin. 2nd row l. to r. C. Record, U. Schindler, H. Thomas, K. Watson, T. Watulak.

Emily prepares notes for cross-examination.

The debate team is a group that debates competitively with other schools throughout New England. These students show an aptitude for logomachy that has caused them to consistently place well in competition. From novices to varsity, we have had students place very impressively. Joel Tetreault recalls being one of the top speakers in last year's state tournament. There have also been several first place trophies.

The team must debate on different topics from year to year, causing them to be very knowledgeable in current events. Some favorites are abortion and whether there should be a significant increase in space exploration. This year's topic concerns health care.

The members debate in pairs for either the affirmative or the negative side of the issue. The affirmative side goes up first and outlines their plan on how to attain the resolution. While one person is debating, his or her teammate and the other team are taking notes in preparation of either the cross-examination or their next argument. A person on the negative side then talks and the affirmative cross-examines the speaker. This whole process is repeated three times while the judges evaluate both arguments and then rule in favor of either the affirmative side or the negative side.

"Science Club is a fun club where the members participate in activities having to do with observing science and the environment," said senior Mary Berry. It seems field trips is a big thing for the Science Club. According to the members, their excursions have included whale watching, canoeing, and various museums. The other major part of the Science Club that everyone enjoys is learning about nature and the environment. The members thought the best excursion they went on with the Science Club was the Vermont Youth Environmental Summit.

Q

What is your most unique excuse for missing a deadline for the Red & White?

A

I never miss deadlines, I'm perfect!
Rebecca Sherman Grade: 10

This just in . . . the hottest thing off the presses at Rutland High School is it's newspaper, the Red & White. The paper is distributed in pamphlet form to all RHS students and faculty and covers such interests as sports, academics, articles on world issues and student concerns, and usually a reader opinion poll or two.

Journalists worthy of Pulitzer Prizes range in age from freshman to senior and are advised by the one and only . . . Ms. Fregosi. Students volunteer their own time to devote to the research and writing of their stories. For the most part, the Red & White adheres to school events, but sometimes editorials or articles are written on public issues, many of them focus on how they effect the high school both directly and indirectly.

Although sporadically published the entire student body looks forward to receiving their Red & White. Did some one say Pulitzer Prize?

School's out. Now is the time for the entire student body to frolic and play in the warm weather, during hours and hours of free time. Summer is when we all forget 95% of everything we've studied so hard to remember over the previous year, and do nothing but relax. Okay, an exaggeration slightly but the idea is familiar to us all. A few Rutland students decided during the school year, while still in a daze of academia, to apply and then get accepted to the Governor's Institute of their choice. For one to two weeks, select students immerse themselves in fields dealing with public issues, the arts, and the sciences. Students boarded in the five-star dorm accommodations supplied by the colleges around the state that hosted the programs.

UVM hosted this years natural science program. During the two week program, students came together and interacted with other students on activities focusing on the natural sciences.

Castleton State College hosted the Governor's Institute on the Arts. A two week program, students were allowed to experiment in concentrations of all aspects of the world of fine art.

The School For International Training, in Brattleboro, played host to the one week long Institute on Public Issues. Students chose one area of study to focus on and then also studied other subjects in less detail.

Governor's Institute was an experience had by few at RHS, but enjoyed by all who attended.

So much for the food on campus! G.I. students satisfy their palates by picking strawberries.

Q

What are your feelings on being a member of NHS?

A

It is a feeling of pride and accomplishment.
Mike Clark Grade: 12

Q

Do you feel privileged to be a member of NHS?

A

Yes, it is another way to do something for the school and the community.
Joel Tetreault Grade: 12

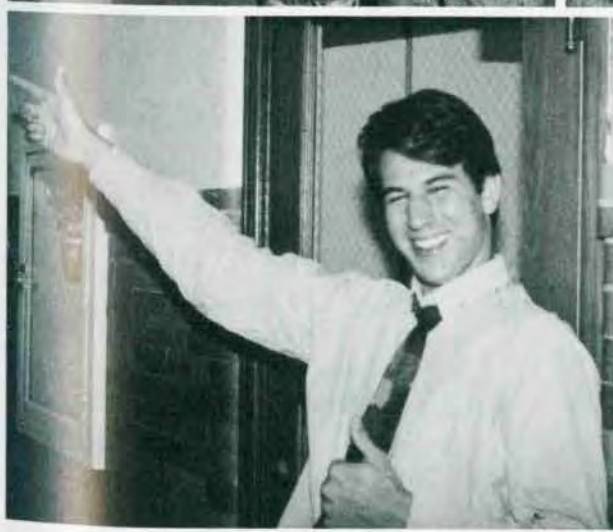

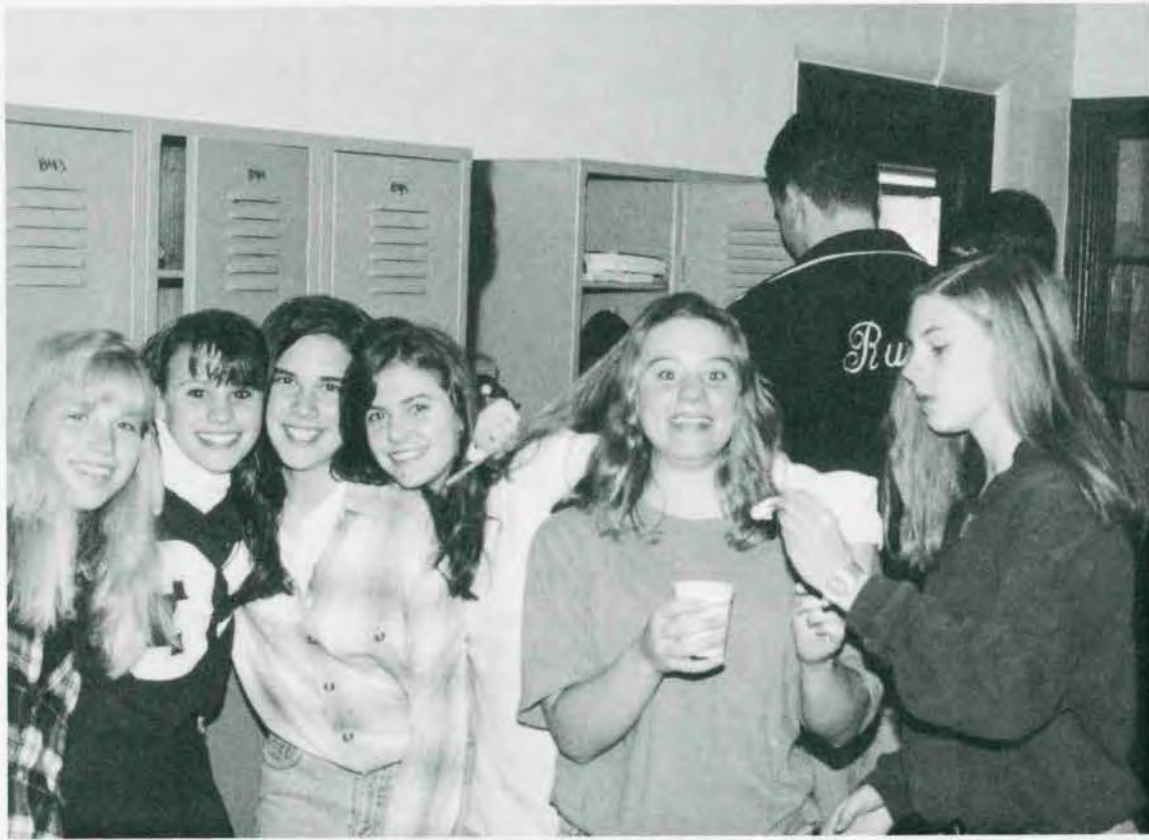

Being a member of the National Honor Society doesn't just mean wearing those little blue bits over your gown at graduation, no, no, NHS goes much deeper than that. Students are selected according to their grade point averages, which have to be at least 3.3. After meeting guidelines, they are then asked to apply. If and when accepted, there is no tenure. Students must maintain their GPA in order to remain.

National Honor Society is also a public service club and many members are currently involved in aiding the American Cancer Society by raising money and promoting skin protection by distributing sun screen.

In a word, belonging to NHS is an honor. Their recognition is well deserved as are their accomplishments.

Communications is as great as ever this year. Under the fearless captaining of Mr. Kreitzer, this class has dared to go where they haven't gone before. As Kate Valentine says, "communications is a class to look forward to during the day." That it is! Not only does the communications classroom offer a relaxed environment but there is always a comfortable beanbag waiting for a weary student.

This year communications classes have done wonderful things. The Hobgoblin Hike met with much success, Big Friend/Little Friend groups are working well, and all other branch projects offered through the program are in a word GREAT! Nate Symanski says, "with any luck up-coming communications classes can look forward to having fun-filled activities, risk taking boundary breaking, and experiences in probing the inner-self." Putting it simply up-coming communications classes have a lot to look forward to.

So, is communications class the final frontier? No, What you learn here is only the beginning.

The best part of communications is the atmosphere. You are learning practical and needful things in a relaxed environment.

-Dayna Barth

Need a stress release Nat?

Oh Yeah, we're really cool.

Up-coming communications classes can look forward to fun! Learning about people you know nothing about!

-Cara Bates

The funniest thing that ever happened in communications was when we were playing killer and Rick Couture dove to the floor playing dead and he got rug burn on his face.

Big Friend Little Friend

The Big Friend Little Friend program at Rutland High School gives students a chance to interact with younger children throughout the Rutland area. The students and their little friends meet once a week to enjoy many amusing activities. Whether they're going sliding or baking cookies, the students are always having a great time!

Many of the students in this program feel that they give their little friend a positive role model and also someone they can trust and look up to.

The Big Friend Little Friend program has always been a big success at RHS and hopefully it will continue to be such a fulfilling and rewarding experience.

The Students Against Drunk Driving chapter at Rutland High School is a very significant program. It's success in making students realize the consequences of drunk driving has greatly affected our school. Through SADD, students are given a chance to participate in activities such as the Helping Hands Carnival, Governor's Youth Leadership Conference, and National Student Safety Program to name a few. These programs and others raise money to help teach students about the effects of drunk driving and instruct others how to prevent this horrible crime. We are fortunate to have such a beneficial program at our school.

Second row (l-r) Megan Canty, Heather Wilson, Cara Bates, Caryn Dupuis, Mary Fricke, Amy Densmore. Third Row (l-r) Ben Anderson, Craig Garbiel, Christian Hiller, Rick Couture, Emily Prescott, Jen Sweeney, Jen Neuffer.

Diversion is made up of a group of dedicated peer leaders who when asked sit on the Diversion board and decide on what the person who committed the crime should do as repercussion to their actions. Since its establishment Diversion seems to have served the community well.

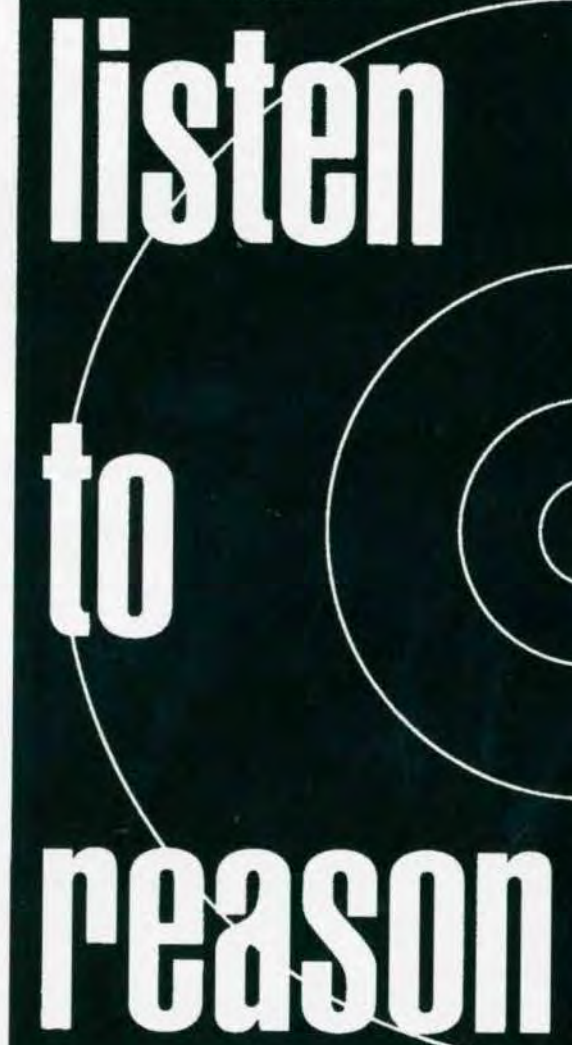

Mediation: First row (l-r) Christina Gibeault, Jennifer Smith, Stasi Evans, Wade McLaughlin. Second row (l-r) Jaime Ingalls, Jenna Griffin, Melinda Vaughn, Mr. Kreitzer. Third row (l-r) Emily Howells, Stacey Godbout, Jessica Mazzariello, Jodi Casey, Emily Howells

Mediation is another group consisting of peer leaders who go through a 32 hour training so as to be trained sufficiently in the art of mediating. They are called in to help settle disputes before other actions need to be taken. This is a group of dedicated teens who are helping many people with their skills and time devoted.

Peer to Peer is a group of students that consists of volunteer their study hall periods to spend with a student from the junior high or the freshmen class. There are no trained skills needed for this program, however, your friendship and commitment is cherished by your new friend.

What do you get when you put GMTI in RHS?! (For one thing you get a whole bunch of acronyms . . .) But, you also get approximately fifty of the most energetic students this side of the nut house. (By the way, GMTI is an acronym; it stands for Green Mountain Teen Institute.)

This year GMTI members used all their energy in several events and projects, including hosting a Peter Alsop concert, being a part of Santasia, and participating in the Hobgoblin Hike . . . not to mention attending some pretty wild meetings.

So what goes on at a GMTI meeting? A lot of laughter, that's for certain! Said senior Jaime Ingalls, "(I laughed the hardest) during the game Sardines when Carrie DuBray and I were led to Nate and Luke by Nate's cologne. We could follow the smell!" According to Staci Evans she laughed the hardest when she and her friends were "singing in the dark."

Well Mr. Kreitzer, it seems like you've got a pretty awesome group. Now let's just hope they don't get hurt playing Jilted Lover.

"I got involved in GMTI in eighth grade and decided to continue because I felt it was worth while and a good cause." - Tom Feronti

"My favorite memory will be all the friendships that grew." -Amy Densmore

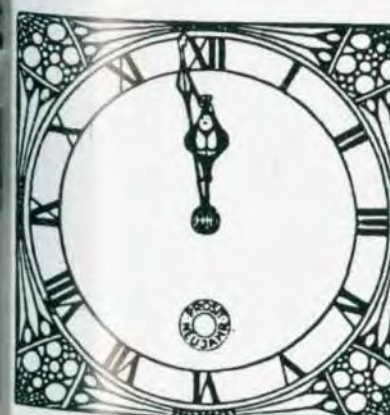

Being an exchange student at Rutland High School for this year has been a lot of fun. I had a great time playing for the soccer team in the fall. I really felt like a part of the team. It was a great pity that after a while I turned out to be ineligible to play because of my graduation in the Netherlands, but the team and our coach did not let me down. In the winter I joined the ski team (not competitively) and I really enjoyed it. Although schools are quite different here from Holland and I did not know anybody in the beginning, I soon got used to school life here and felt comfortable. The interest for my natives language (Dutch) was overwhelming, especially for the Dutch translation of English swears. In conclusion, I want to say that it was a wonderful experience to spend this year in the U.S.A. and I want to thank everyone who helped me survive here in Rutland.

Frank van Acker from the Netherlands and Mikiko Tonifuji from Japan came to Vermont to spend this school year with us at Rutland High as exchange students. Both of them are excited about being here and know that they will carry the memory of this experience with them for a long time.

This year I had a really good time in Rutland as an exchange student from Japan. Two years ago, I came here as an exchange student for only two weeks, but I had so much fun that I decided to come back. My native language is so different from English that I was really afraid to talk, but everyone was so nice to me that it made me comfortable. I had a wonderful time this year, with friends at school and everything. There were so many differences between Japanese schools and Rutland High School, but I really enjoyed it. I want to thank everyone who helped me survive in Rutland.

The Alternative Education Program has an enrollment of 30 students, including 14 seniors that will graduate in June.

AEP is designed to follow the curriculum of Rutland High School in an off-campus setting with an emphasis on communication, personal development and social responsibility. A typical day includes academics, community service, and employment.

This year AEP piloted two new programs. Together, with the Rutland Area Visiting Nurse Association and the Rutland Regional Medical Center, a Teen Childbirth Education Program was created. The Vocational Department of Employment and Training, was also started this year.

Stafford Technical Center offers programs to Rutland High School Students. The students pick a course they are interested in learning more about for their future.

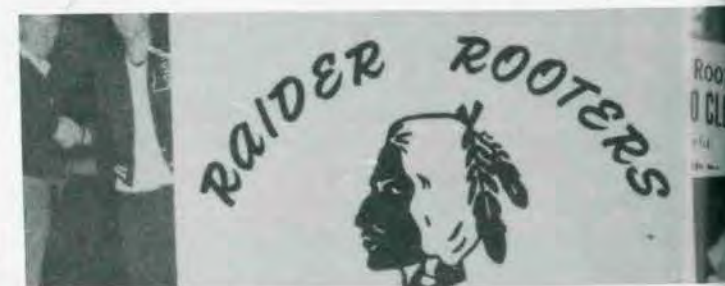

The students get hands on experiences in the course they take. It's a way to prepare students for the job market.

The programs offer you an opportunity to learn and get experience in the field you choose. The student get one subject credit and 5 other credit's if they pass the course.

RAIDER POWER

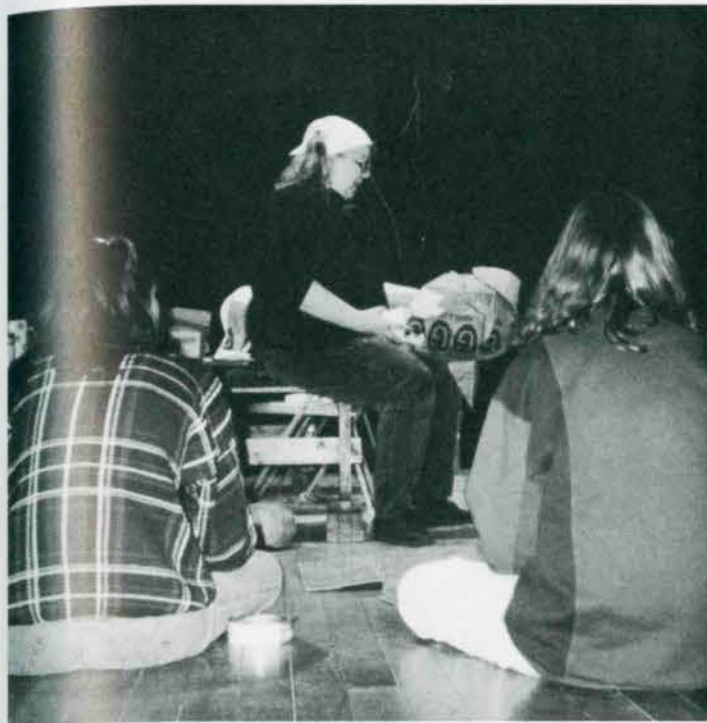

Raider fans must be the best fans in the state because of the abundance of support they show all their teams. No matter what the sport or outcome Raider fans have always been there to root for our teams and hopefully they will always continue to do so. Raider Rooters also plays a big part of support at our school because without them we would be without the necessary equipment and funds to continue all sports related activities. Raider fans never stop showing your spirit and support for your team because it is appreciated by all who participate in any sport.

The 1993-1994 was in rave form this year. Many say "I Never Saw Another Butterfly" has been the best performance to date. However, if you ask members of the cast and crew, you get mixed opinions. Lea Reed says, "I agree Butterfly is one of the best productions because the cast came together at the end and put on a great show. The cast did give 100% on all three nights." Kierston Watson on the other hand feels, "To the audience it may have seemed the best but that's because a lot of people didn't come to see all our performances. It was one of the more difficult and least fun performances we've put on." With these thoughts from the members one can only leave the final decision to the audience. This isn't where Drama Club ends. The production of "The Diary of Adam and Eve" is another great theatrical feat being brought to Rutland High School. On the whole the Drama Club works hard. So give a hand for the group of people who bring Broadway style to Rutland, Vt!

Chambers, Madrigals, and Concert choir are the three choral groups at Rutland High School. Not only do they perform seasonal concerts at the school, but they also perform for many other local organizations such as the Rotary Club, the Grandparents Club, and various churches. Their musical arrangements consist of classical, baroque, 20th century, acappella, and religious music.

Also branching out from these three groups are various music festivals. These festivals include the Green Mountain District Music Festival, Vermont All-State Music Festival, New England Music Festival, Madrigal Festival, All-Eastern Music Festival, and Plymouth All-New England Music Festival. Students are selected for these by auditioning in quartets and Rutland represents a big share of the talent at these festivals!

Overall chorus is alot of fun and if you enjoy singing it's the place to be. To sum things up, Suzanne Kantorski eloquently states "(chorus) is one of the only spiritually stimulating activities high school offers!" According to many others Dr. Gold's expressions keep everyone laughing!

DANCE!

Dances have certainly changed in the years we seniors have been here. The new decade brought many changes one of the main ones being new dance moves. What was then in is most likely now out. Without failure the Electric Slide always makes an appearance at RHS dances. Dances are a time to socialize with your friends and a time to be with your team to get psyched for the big game or celebrate the big win. Music ranges from the beat of the 60's to the rap of the 90's. At RHS dances there is music for everyone; alternative to metal - you name it we got it. Dances are a time to put on your best threads and have a good time whether you are with a date or with your friends. Put your dancin' shoes and don't miss the next dance at RHS.

TIME IN THE MAKING THE 1994 TALISMAN

Proud Bethany

Concentration

Nice, Alden

Delia; you seem to be happy!

This yearbook was digitized by volunteers from the

Just in case you haven't noticed, your 1994 Talisman has gone through copious amounts of changes this year.

The '94 staff has introduced new styles of formatting, graphics and lettering, as well as the first color appearances made by RHS students in all of Talisman history. No big deal right? Wrong. The introduction of new style and color has made the '94 Talisman a more highlighted and memorable yearbook than ever before.

In favor of the senior's creativity and expression, we have reinstated Senior Blurbs. Although the true meanings of some may be hard to decipher, the memories will be had for years to come by those who wrote them. In addition, this year's Talisman has also brought back the ever popular Senior Superlatives. Categories from Most Musically Inclined to Most Likely To Be Found in The Nurse's Office are sure to bring serious as well as humorous reminder to us all of the unique character traits of the members of the class of '94.

In addition to the reinstatement of some old favorites, this year's book also highlights spring season sports and activities. Although usually neglected on account of yearbook deadlines, spring activities have never been acknowledged. This year though, the Talisman has rightfully given recognition all such spring activities directly in the books context itself, not in supplement form. The close of the '93-'94 school year is not just the end of the class of 1994's high school years, but also the close of the Rutland High School on Library Ave. as we have known it to be for years. In memory of the past students, faculty and staff that have made RHS what it is, the Talisman staff welcomes you to purchase an extra supplement issue on the history of the building on Library Ave. This historical memoir is just another way that the Talisman staff has worked this year on preserving your memories.

Under the watchful eye of the Talisman's new advisor, Donna Goodhue, the staff, consisting of members from all grades, enjoyed bringing back some old traditions as well as introducing some new ones to the book. Hopefully many will continue on into the future of RHS and in the future of it's yearbook, The Talisman.

The 1994 Talisman staff consisted of the following people:

Donna Goodhue: Advisor, Sonja Lunde: Editor, Amy Densmore, Dayna Barth, Christie McGuire, Bethany Stack, Melinda Vaughn, Crystal Mock, Jaime Ingalls, Nate Symanski, Alden Franzoni, Jen Wideawake, Heather Berry, Kelly Maxfield, Delia Wong, Heather Wilson, Chrissy Gibeault, Rebecca Sherman, Ursula Schindler, John Marro

The 1993 RHS baseball teams were close knit groups. Both teams were friends that had a lot of fun during both practices and games. The J.V. boys agreed that practices did not seem really like work because of all the fun they had together. Their record was .500. The Varsity team made it to the semi-finals where they lost to St. Johnsbury. A high point for the Varsity squad was upsetting undefeated and #1 ranked Brattleboro. The '94 squad will be returning many experienced players who have expectations of going all the way.

As usual the RHS track team was large in size. It was made up of about 65 athletes and very few of these were seniors. The seniors who did graduate will be missed because of the tremendous achievements they made during their 4 years on the team. Two of these seniors are Michelle Blome and Carrie DuBray who have set many records in the school and state. The team will be returning many strong athletes for the '94 season who's leadership and athletic ability can take the team far.

Both the Varsity and J.V. teams had good seasons. The Varsity team was once again CVGAL champions, an honor they received for the second year in a row. The Varsity squad made it to quarterfinals where they lost to Brattleboro. The Varsity coach was Dick Wright and the J.V. coach was Chris Martin. The squads will be returning a core of players who have the ability to make their dream of becoming state champions a reality.

The golf team had a busy season last year. They were competitive enough to make it to the state championships held at the Ralph Meyer Country Club in Middlebury. The team placed fourth overall in the tournament which is quite an accomplishment. The Rutland High School Golf team gives students an invigorating sport at a relaxing pace. This spring should be an exciting one, we have many talented golfers as well as some who are just getting the swing of things. We wish them a successful season and beautiful weather!

"I enjoy a non-strenuous exercise and also some of Vermont's finest landscapes."
-Bryan Goodchild-

The Rutland High Girl's Tennis Team under the supervision of Kate Miles, did a wonderful job last season. The girls made it to the quarterfinals, but lost against Burlington. This season the team will be without some of their top singles players, but this won't stop the girls because they have several returning seniors along with many talented underclassmen, to keep the competition alive. Also many rival teams have lost their best players, so this season's state championship title is virtually up for grabs.

The Rutland High Boy's Tennis Team is a very young but accomplished team. Last year proved to be the best season for them in about four years. Under the coaching of Mr. Poplawski the team will have only two returning seniors, but they will stay strong with the help of several returning sophomores and juniors. Hopefully some freshmen will join the team and help them on their way to another terrific season! Last year the boys were 6-10 and they are hoping for more of the same this year.

Boy's Lacrosse is not a official sport of Rutland High School but is nonetheless a large part of many student's Spring season. The lacrosse team is a mixture of students from area high schools in grades 7-12. Even though the Boy's Lacrosse team doesn't get much recognition, they devote their time and effort and try their best to excel in this difficult sport. We hope that in this upcoming season they will receive the support and credit that is well deserved.

The 1993 Rutland High Varsity Football team went 6-3, with an impressive win over the city rivals MSJ. The juniors as well as the seniors played a big part, and the team looks promising for next year. This years team however, lost in triple overtime in the semi-finals to Middlebury. Congratulations seniors on your four years of dedicated RHS football, and good luck next year to the '94 team.

RUNNING OUT OF TIME

"The best part of playing football is the contact. There's nothing like getting hit, then getting back up and having your head spin so hard you don't know where you are."

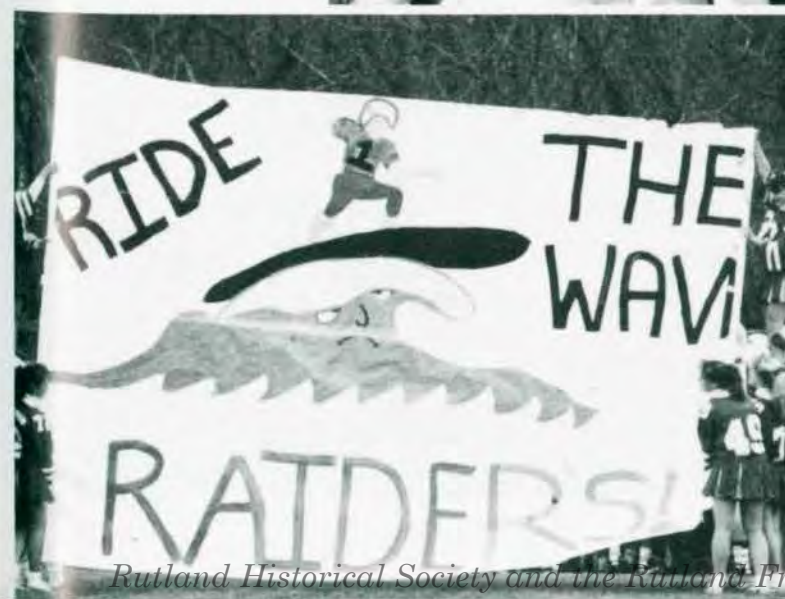

-Ryan Welch

"It was at BFA during player introductions I was announced and ran through the line of players. When I got to Mike Clark he hit me so hard that I fell to the ground and was dazed for a minute."

-Rick Couture

"If our team is on a winning streak, I do the exact same things and wear the exact same clothes that I wore the week before. Right down to the socks, shirts, and even underwear."

-Mike Clark

Who would have thought two years ago, that a team with a final standing of 1-9-2 would wind up 11-0-6, with the state title in 1993? Wonders never cease and so goes the saga of the famed field hockey phenomenons who returned victorious after an amazing performance against twice defending champions, Spaulding High School.

It all started during pre-season, while looking into their crystal balls, THIS team already knew what was ahead and how to win.

Under the close, scrutinizing leadership of head coach Lynne Sanders and Super Captains Dayna Barth and Sara Mumford, the Raider Ladies proved that real women do wear red.

Like Abbot and Costello, no player was ever without another and stuck together through the best of times and the worst of times.

Disappointment was a word not found when anything was mentioned about this year's field hockey team. The red carpet treatment was well deserved as was the rewarding season that they all worked so hard for.

J.V. Field Hockey: top row: coach Erica Connor J. Manchester, A. Briggs C. Sheehy, D. Clark, C. Moulton, A. Layden, J. Anderson, S. Fingon, E. Prescott, H. Blanchard, K. Glade, E. Coppinger, J. Smith, E. Rice, coach Cyr, bottom row: S. Mello, C. McFarreren, J. Hubbard, L. Barth, L. Rupe, T. Cassarino, B. Ladabouche, J. Courcelle, T. Shipman, P. Bouream, J. Sacco, E. Hooker.

"During a night game, while everyone was watching, I tripped over my own stick and fell. I was so embarrassed!"

-Katie Valentine

"I've been thinking about winning states since I was a freshman, it is definitely the best memory."

-Jenny Sweeny

"I like this sport because it is a team effort in which you get to have a lot of fun and work together for a common goal."

-Kelly Crowley

Freshman Jenny Everett dazzles the crowd once again with her amazing performance out on the field.

Sara struts her stuff, showing her usual poise and properness.

BOYS JUNIOR VARSITY SOCCER

The main goals of the boys-junior varsity soccer team this season was to improve over last year, having won only one game. They did, in fact, improve over last year and when asked about it, Jon Patch said "This was j.v.'s best year in a long time." Justin Hersh added to that saying, "we played very well. We had some new freshmen who were a real plus for the team." By the end of the season the team had "gotten together and communicated well" stated John Stokinger.

GIRLS JUNIOR VARSITY SOCCER

The girls junior varsity soccer team, ending with a record of 7-6, played harder than ever throughout the season. When asked how she thought the season went, Sara Comeau said "I think we played extremely well. It was a good season." Their five game winning streak started at Leland and Gray with a 1-0 victory. According to Niki Grenon the soccer teams goals to accomplish for the season were "to improve as a team" and to improve their record. Overall, the girls worked hard and really pulled together.

Since its organization at RHS three years ago, girls soccer has come a long way. Through coaching changes and a season that was not what you expected, the team stuck together and kept playing. With their skills constantly improving we are excited to see what is in store for girls soccer in the coming seasons.

"I love to play sports. It was either football or soccer. I knew I would play and not get hurt as much in soccer. The best thing about playing is scoring a goal whether its myself or another teammate." Tri captain Luke Barron

Some thought that the loss of seniors would hurt the boys soccer team and their ability to win, it did not. Exchange student Fran Van Acker came and showed RHS fans how he could put the ball in the net. He showed us this over and over again over and over again. Every game fans saw a dedicated team playing their hearts out. Even though there were many tough times during your season we admire you for the strength you have shown. We wish you well in future seasons.

I play soccer because I love it, I love my team and there is nothing I'd rather be doing.

This year the Varsity Basketball Cheerleading team started a new tradition, cheering at girls games. On this subject, sophomore Arielle Ryan said, "I think it shows great team spirit and we want to support all our teams."

In February of this year the team participated in the State Championships in Burlington. In a great effort, the girls placed fifth out of eight Division I teams. Co-captain Teri Hubbard said of this achievement, "I think that placing fifth was excellent considering we only have two returning members."

The cheerleaders give a lot of encouragement towards Rutland's teams and have a great time doing it. Junior Sara Carbine summed it all up when she said, "Working together and being friends will all the girls and all of us being friends is my favorite part of being on the team."

The Varsity Football Cheerleaders show a great deal of support for our football team. They spend hours painting signs, buy carnations, bake cookies, and organize pep rallies to pump out all of the team spirit.

When asked why the squad does all this, Jessica Carrara said, "We want to show the team that the cheerleaders and the squad are there to back them."

The Cheerleaders dazzled the crowd with a spectacular dance during halftime at the annual Rutland/MSJ rivalry game.

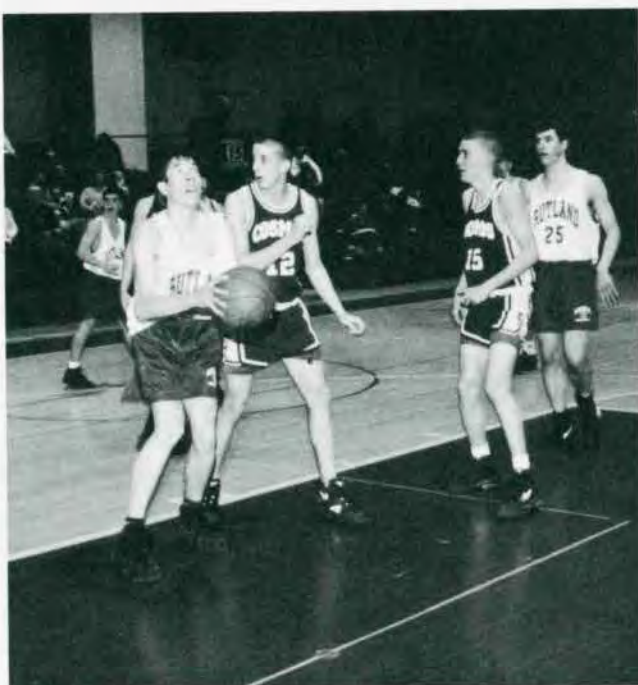

Varsity Football Cheerleaders 1st row: Captain T. Hubbard, J. Williamson, B. Lamb, A. Griffin, manager J. Mazzariello. 2nd row: L. Pham, A. Ryan, K. Bragg, A. Sady, Coach Stacey Fiske. 3rd row: S. Carbine, J. Carrara, S. Siliski, A. Rogers.

The JV girls basketball team ended their season with a record of 4-16. Even though their record may not show it the girls played well all season and many of their games were close ones. There is much skill and talent on the team and we hope to continue to see them in a Raider uniform.

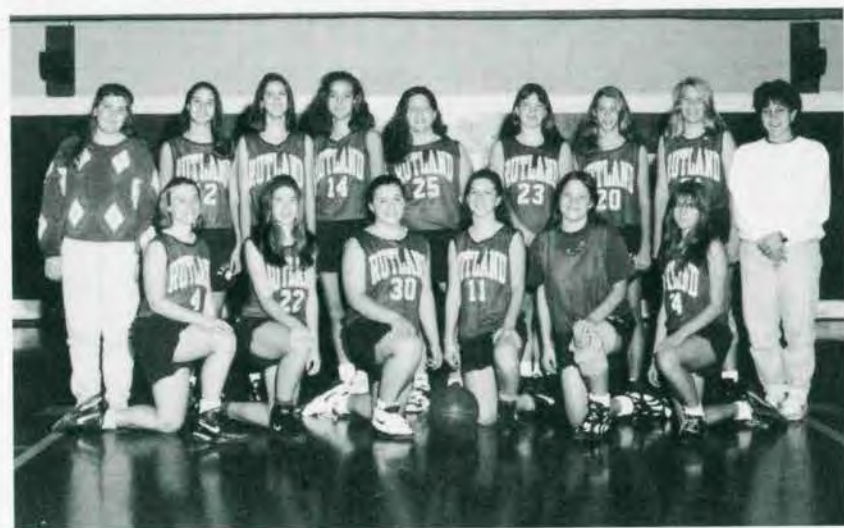

"The most memorable game was our last game because we beat MAU by two points in overtime and because everyone played well."
Cara Costello

"I chose to play basketball because I don't know how to skate so I couldn't play hockey and I'm a much better b-ball player than skier. I just like to play especially with all my friends."
Pat Dwyer

The JV team is a bunch of guys who play well together on the court and have made losing an action they have not become accustomed to. The guys on this team admit they are all friends and enjoy winning together. Improvement has been constant since the beginning of the season. We look forward to seeing great things from them in the future.

"The future looks promising but we make have to work very hard and make a few changes. Overall though, it is something to look forward to!"
Jill Sabotka

"We started this season with an 0-2 record. We could have given up then but we didn't. We came together and played well as a team and now we are starting to peak at the right time in our season."
Jim Anagnos

This years team was once again a young one with the loss of seniors. The team though they had a record of 2-18 they played their hearts out in each game and approached each with a positive attitude. The wins came over Burr and Burton and rival MSJ. Even though this was a young team they are losing only two seniors and returning a slew of talented players who are determined to do even better next season. This season they had many ups and downs but they stuck together through it all!

The '93-'94 season started off on shakey ground but then they started rolling and they haven't looked back since. The team is chasing a dream that has eluded them the last few seasons and that is the title of State Champion. Even though they lost three talented seniors to graduation last year they are led this year by senior co-captains Jeff Sinn and Jim Anagnos.

The Alpine ski team, who practiced everyday after school at Pico, had an exceptional season. Coming into the season defending their state title, Meredith Bagley remembers winning, and says "we hung together as a team, stayed focused, and kicked butt," Ryan Welch remembers: "I was racing down a course and felt like I was skiing bad, so I stopped in the middle of the race to ask a gatekeeper how I was skiing, then I continued on! All in all, the downhill ski team performed wonderfully, and proceeded to win the state title again this 93-94 season.

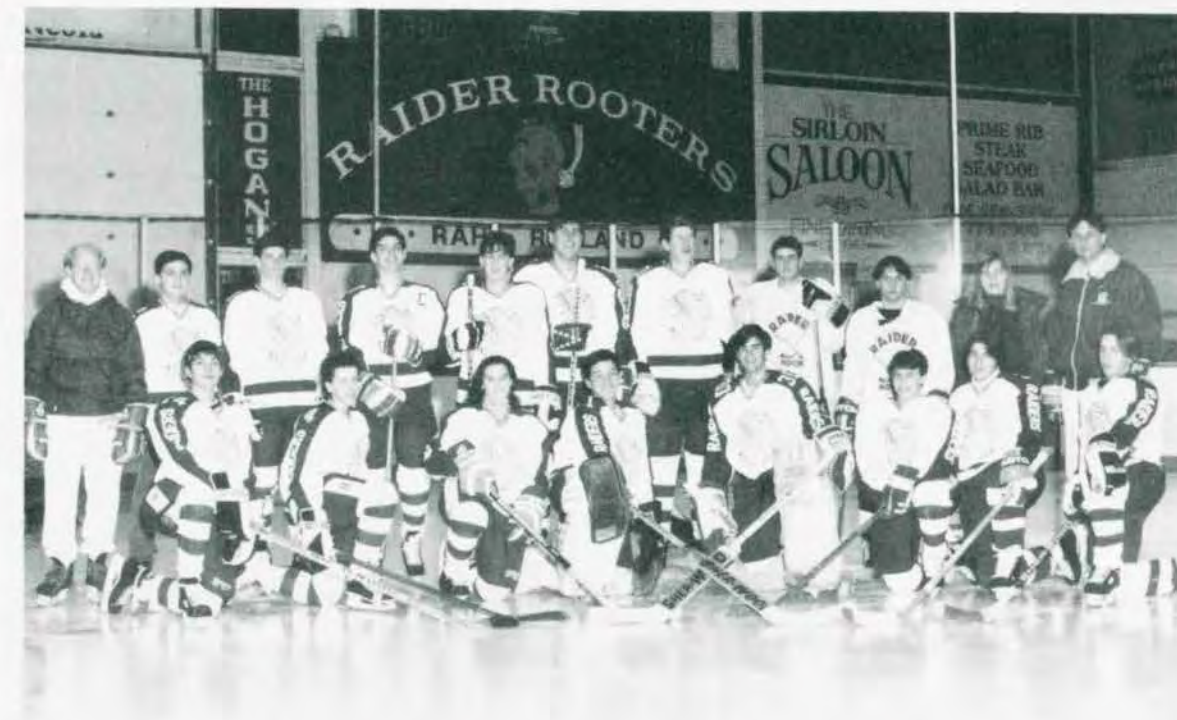

Haley Barnard, the only member of the nordic ski team represented Rutland High School in a positive way. Although she had no teammates to share her excitement she placed very well in all of her races. We look forward to seeing you next year Haley!

Alpine skiing 1st row, l. to r.: Coach McClallen, J. Sweeney, C. McEwan, V. Flory, S. Averill, E. Howells, M. Grant, H. Brown, H. Rizk, 2nd row l. to r.: E. Prescott, J. Heuffer, K. Joseph, S. Abrahamovich, P. Carey, C. Nasveschuk, J. Handley, J. Smith 3rd row l. to r.: F. vanAcker, R. McIntyre, M. Fucci, C. Hiller, K. Abrahamovich, J. Christie, J. Hersh, J. Patch, J. Olanoff, S. Fingon 4th row l. to r.: M. Gallivan, K. Charlton, C. Garbiel, E. Poplawski, T. Charlton, W. Christenson, C. Nicholson, M. Voity, J. Hochberg, D. Linquist, M. Voity 5th row l. to r.: M. Pell, E. Montrone

"The alpine ski team, with the addition of many good freshmen, has a lot of potential. We are all serious independent skiers, joined as one"

-Steph Averill

Hockey 1st row, l. to r. D. McColgan, H. Alberico, K. Maxfield, L. Patorti, M. Coppinger, R. Maxfield, B. Miles, D. Perkins. 2nd row, l. to r. Asst. Coach P. Crossman, B. Goodchild, D. VanGuilder, T. Moran, A. Smith, J. Whittemore, T. Johnson, D. Coloutti, K. Ladabouche mgr., Coach, G. Olson

The 1993-94 hockey players really came together as a team. Throughout their season they worked diligently to improve their skills, and a lot of players practiced over the summer to strengthen key areas. Many of their losses were only by two or three goals, showing how much better they've become. They feel that quite a few star players will be returning next year. Much positive credit goes to goalie Mike Coppinger who says "There are a lot of up and coming players." Look out for Raider hockey next season.

"there's nowhere to go but up."
-Mike Coppinger

NATHAN SYMANSKI, PRESIDENT

As the class of 1994 leaves behind the traditions of old, they only prepare the way for the traditions of new. The years have quickly passed and we have seen great triumph in all aspects of our high school careers. Every one of us has in some way directly or otherwise contributed to every one of these successes. It is as a team or as a class that we have accomplished so much.

As you continue your lives you will realize that the accomplishments made, are never made because of one persons efforts. The great people of our world, past and present have attributed there successes to the combination of many. The variety of strengths and weaknesses combine to create a stronger single body. With this in mind we will go on to believe that ideas created and supported at Rutland High School, will help to shape us into the fine adults we have and will further become.

The last four years have passed us with great speed. We are now expected to be adults and fair well in the real world. This to many is a great opportunity to expand their horizons and become their own person. It is my sincere hope that all of you shape your own lives and become your own person. I am certain that if you are happy with who you are your lives will be successful and full of happiness.

To the class of 1994 I wish you success, profit, and above all else happiness. Good luck to you all in your future endeavors.

I'm painting my room in a colorful way and when my mind is wandering-there I will go. One must eat the other who runs free before him, put them right into his mouth while fantasizing the beauty of his movements, a sensation not unlike slapping yourself in the face. Burnt out grass scorched by the sun, but the buildings remain. We will beat them all to dust. I'll bet ... women never really faint and villains always blink their eyes. Children are the only ones who blush and life is just to die. Let me go on like a blister in the sun. LUV YA" DEE, DAWN, "N" CHEECH!

I would like to thank all the people who helped me survive High School. I would especially like to thank my math and science teachers, including computer science. Before High School I felt I wanted to be a teacher so I could help people as they've helped me. Help from these teachers has given me the opportunity to participate in events showing me that I like doing things having to do been fun doing the Red&White. Thanx everybody!!! MB

Mountains Above The Rest.

Life is an adventure. So, as you start your up-hill climb in the world, keep in mind how quickly Killington's 19 state-of-the-art lifts will take you to the top.

Let us show you how it feels to cruise the largest ski resort in the East, with 6 inter-connected mountains and 155 trails. And, how the Killington Ski School has taught more people to love skiing than any other eastern area.

Research proves no eastern ski resort can match Killington's terrain for diversity. As you explore, you'll discover that Killington's no quick study. Each mountain has a distinct personality and ambience. With 70 miles and 829 acres of ski trails, you'll find a seemingly endless variety of terrain.

Not to mention the enormous choice of extra-curricular activities off the mountain, as well.

Best wishes to the Class of 1994. We hope you'll join us at Killington, America's 6-Mountain Ski Resort, for a lifetime of skiing discovery and your greatest adventure on skis.

and in the future.

Bridgette-

You've worked very hard and we're
very proud of you. May all your
dreams for the future come true.
Love, Mom Dad, Courtney, & Steve.
